Game-changing Advertising

The Scoreboard that Pays for Itself

Sponsoring a scoreboard beneath the padel net is a game-changing advertising opportunity. Positioned at the heart of the action, it captures the attention of both players and spectators, ensuring maximum visibility.

Every glance at the score keeps your brand in focus, making it an ideal spot for impactful promotion. With high engagement and constant exposure, the scoreboard quickly pays for itself, turning each match into a powerful marketing moment.

About LedsCount

- 1 Multifunctional Digital Scoreboard
- 2 Event Facilitation and Match Management
- 3 Enhanced Viewing Experience
- 4 Additional Feature — LedsCount Pager

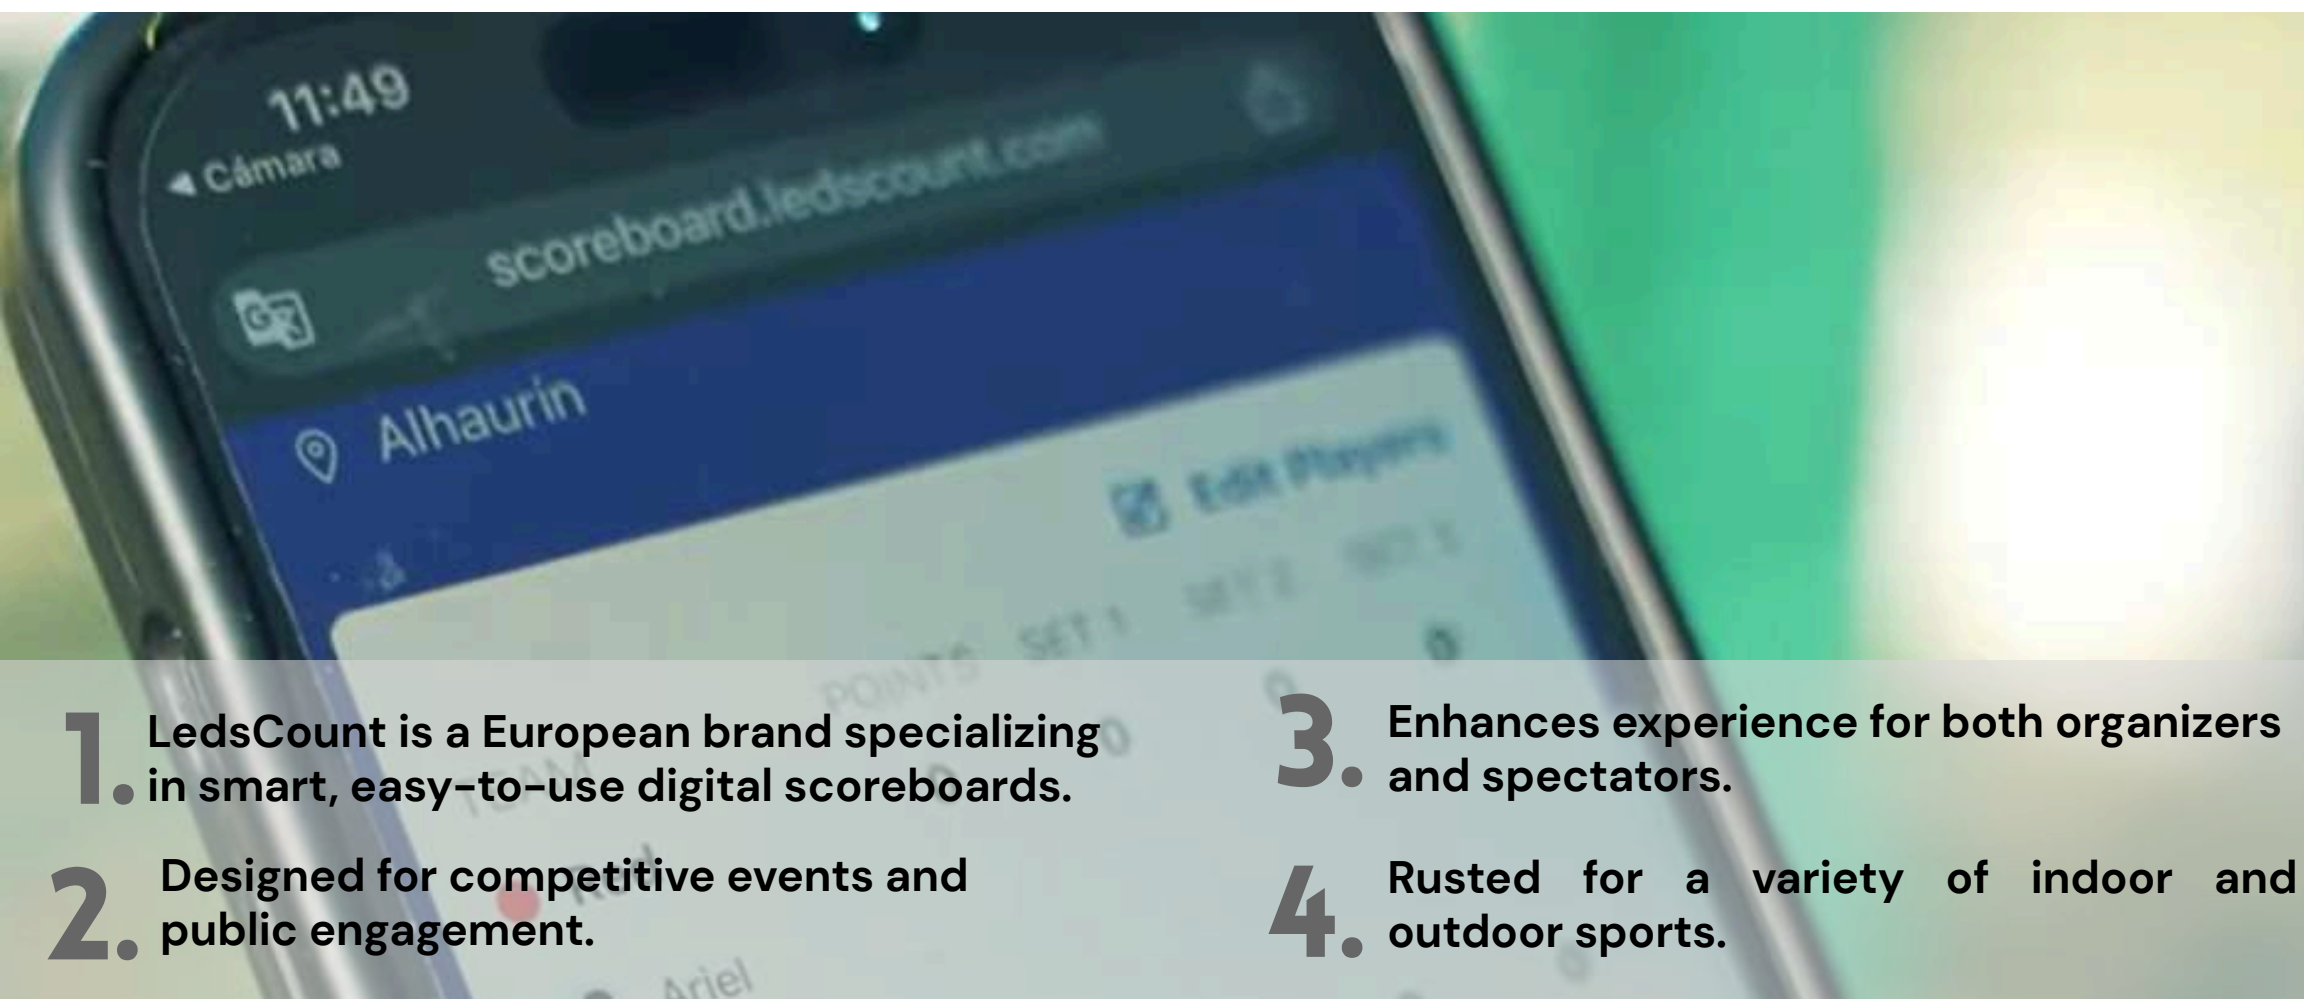

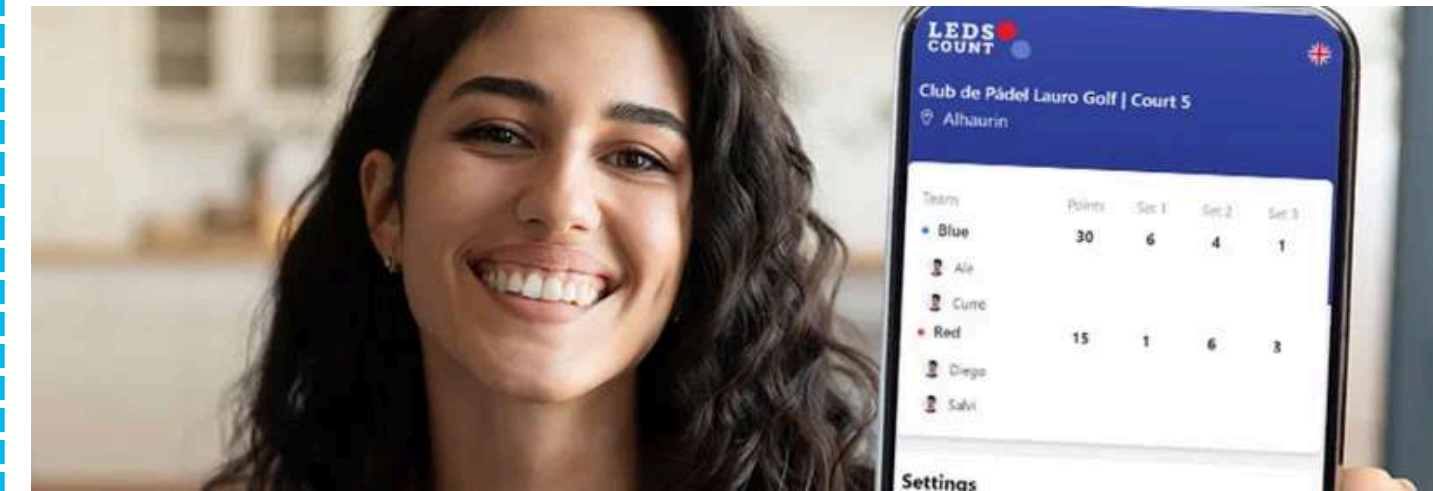

**YOU JUST WANT TO
FOCUS ON THE GAME**

Share your Game live with Friends!

With your smartphone, adjusting match settings before the game is quick and easy. By scanning the court's QR code, you can personalize player names, select golden ball or tiebreak rules, and even enable sound notifications.

Simply scan the QR Code!

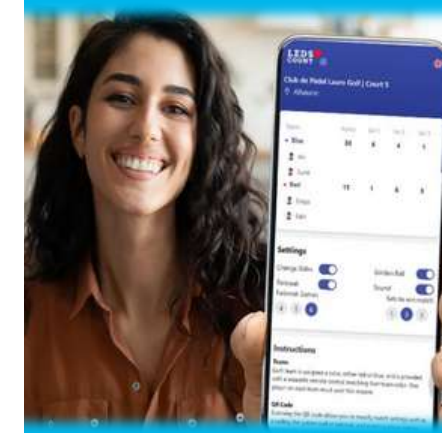

1. LedsCount is a European brand specializing in smart, easy-to-use digital scoreboards.
2. Designed for competitive events and public engagement.
3. Enhances experience for both organizers and spectators.
4. Rusted for a variety of indoor and outdoor sports.

No more Disputes or forgotten scores.

Focus on the Game !

Share your Game live with Friends!

With our scoreboard, disputes are eliminated. It's like having a referee, ensuring every point is clear and fair.

Simply scan the QR Code!

Spectators can track the score and enjoy watching the game, whether its tournament or a friendly match

Solving the Problem

With a scoreboard that updates at the click of a button, players can stay fully immersed in the game without the distraction of tracking the score. This seamless system allows them to concentrate on strategy and performance, knowing the score is always accurate and visible.

Manual VS LedsCount Scoreboard

Manual Scoreboard vs LedsCount:

- Slow input vs Instant updates
- Limited readability vs Clear from 10–50m
- Prone to errors vs Accurate
- Manual writing vs One-click entry
- Bulky vs Lightweight & portable

How It Works

1. Trigger device clicks (starter or official)
2. Data is instantly processed
3. Score displayed on LED board

Control range: up to 100 meters (wireless)

Summary

LedsCount brings simplicity, precision, and clarity

Adaptable for various event types

Plug-and-play with technical support

A smarter way to present score
