SPYROS

The premier provider of ***sport complexes.***

Welcome to Spyros

We are a leading international company based in Jakarta, specializing in sports center solutions. We have extensive experience in consulting, distributing, and implementing equipment for Sport Centres. The range of products and services that we provide are in full compliance with the international sport federations, and more importantly with the local content certificate requirement. At Spyros, our highly qualified team of engineers, designers, and project managers ensure that our execution fulfills all specifications, as well as its technical and economic feasibility.

We always keep the sport site owners and operators in mind to provide them after-sales support, maintenance service, and equipment warranties.

Vision

A world where all can experience the joy of living better through sport within a safe environment.

Mission

Being the premier provider of sport complexes that empower athletes, unite communities, and elevate the sporting experience.

- 4 CROWD MANAGEMENT SERVICES
- 5 SPORT FLOORING SOLUTIONS
- 6 ARENA SEATING
- 7 TECHNOLOGY FOR FAN ENGAGEMENT
- 8 MOTION ANALYSIS FOR ATHLETE PERFORMANCE

SPYROS

Solutions

Digital Scoreboard:

Spyros provides high-quality LED scoreboards for sports complexes, offering clear, real-time displays with vibrant visuals and advanced connectivity. Designed for durability and all-weather performance, our scoreboards enhance game experiences with customizable features, easy operation, and seamless integration into various sports environments. Perfect for professional and recreational facilities alike.

Sport timing system:

We offers a comprehensive selection of measuring products. Our customers benefit from expert guidance and access to the entire product range from a single source. This approach guarantees that every second is measured with absolute accuracy.

Led Perimeter:

Spyros offers premium LED display solutions for sports events, delivering high-resolution, dynamic advertising opportunities. Designed for maximum visibility and impact, our displays feature vibrant visuals and robust durability for indoor and outdoor use. Perfect for sports complex owners seeking sponsors and brands aiming to captivate audiences with dynamic, real-time promotions.

Crowd management services:

- Turnstile & Access Control: Spyros offers an access control system for all zones in the stadiums: Public main access, VIP access, staff & team member access.
- Spectator counting system: We offer solutions for stadium entry points that incorporate a spectator counting system. The gathered information is then transmitted to the venue operations center for further analysis and management.
- Video surveillance system: We provide stadium solutions, from grandstand security to software-based support for emergency forces.

Sport flooring solutions:

We design all our sports flooring choices with athletes in consideration. This enables us to craft surfaces that enhance players' performance potential and provide a secure environment, minimizing the likelihood of injuries.

Arena seating:

Our seating solutions, suitable for both indoor and outdoor use, cater to all types of sports venues, from standard polyurethane seating to VIP options. Our products undergo rigorous testing to meet fire-retardant, UV resistance, and durability standards, ensuring high-quality seating for diverse needs.

Tecnology for fan engagement:

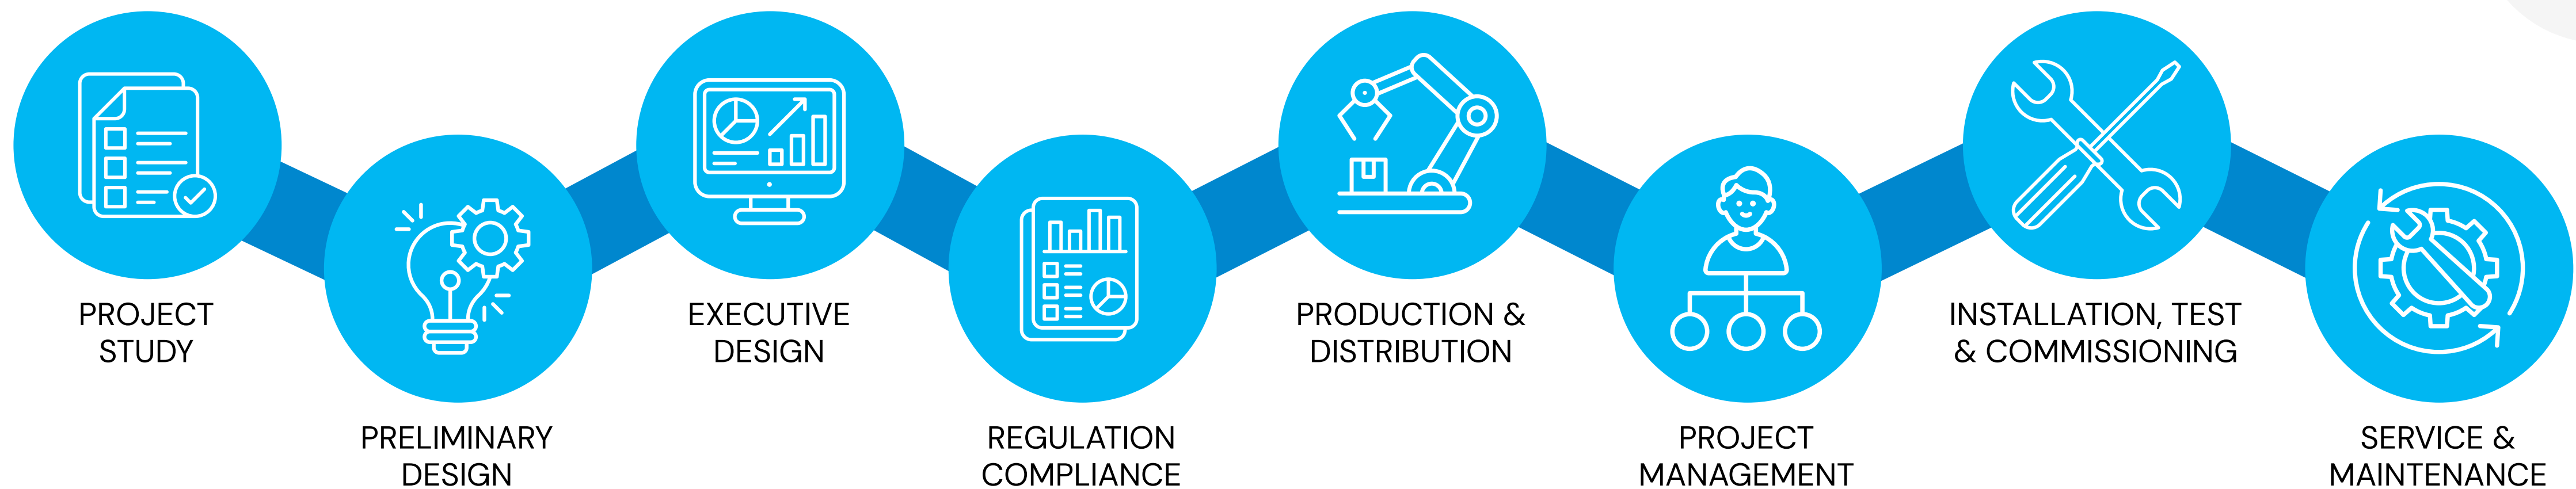

Sports teams and organizations can use a fan engagement solution to share their behind the scenes content, host live virtual events, sell merchandise and boost sponsorships.

Motion analysis solutions for Athlete performance:

From simple technique analysis during training to comprehensive biomechanical performance diagnostics. Find the right analysis solution with us to suit requirements of your sport.
